9.1.1 Monitoring Measurement Analysis and Evaluation

Scope

1. Purpose

To establish and outline the process for monitoring and measurement.

2. Scope

This procedure is concerned with monitoring and measurement associated with the EQMS (Environmental Quality Management System).

3. General

Where practicable the consumption, use or production of a particular product or service will be monitored when it is related to key to the identified significant environmental aspects.

J & E Hall International's Business objectives for quality and environment targets are set out as part of JEH-QEP-6.2 and JEH-Q1-015 Kaizen plan to achieve them.

Kaizen plans are reviewed during the annual Management Review meeting to ensure the management system is evaluated for effectiveness.
