Risk Element

- Noise;
- High-pressure injection;
- Exposure to dust;
- Sprains/strains;
- Slips trips and falls.

Precautions to Eliminate/Reduce Risk

- No employee is permitted to use the sandblasting machine unless they have received the necessary training;
- Carry out pre use checks if any defects are found these must be reported to Manager/Supervisor;
- Personal Protective Equipment required: Air fed hood/helmet, ear protection, coverall/overalls, gloves, safety footwear;
- Ensure work area is kept free of obstacles to prevent slips, trips and falls;
- Check panic alarm.

Safe Working Method

- Use equipment directed as in the manufacturer's instructions. If you are unsure, ask a Manager/Supervisor;
- Check and replace if necessary breathing air filter elements;
- Manager/Supervisor to Lock/unlock electrical isolation point;
- Take care when loading or unloading cabinet with heavy items, use lifting aids where possible;
- Make regular checks to the condition of all Lines and Connections;
- Look for wear, splits, or leaks and replace if necessary;
- Clean work area after use;
- Hose **must not** be pointed in the direction of people;
- Turn off all equipment and return to storage area.
